

TELLS TAGALS TO HOPE

Democrats to Repair Wrongs

ADVICE OF AGUINALDO

To His People Touches Upon McKinley's Syndicated Administration

Scraps-McRae Press Ass'n.

New York, Oct. 4.—Light on some phases of the situation in the Philippines and confirmation of several stories of the interest taken by the Filipinos in American politics and the political campaign is given in translations of documents sent to a friend in the United States by an American army officer doing duty at the scene of hostilities. Some of the papers were taken from prisoners. This proclamation was issued by Aguinaldo last August and was published in the National Press of Tagos. It says in part:

"The American government deceives itself, as do those men deceive themselves who with greater sincerity than fitness of time pretend and continue to pretend that peace must reign in our land before the light of liberty and independence can shine over the four cardinal points of our beloved country. The latter, however, will come about as circumstances are coming to assist us. Favors Bryan's Candidacy.

"Two elements are now struggling in the United States—those who desire the re-election of McKinley and the great Democratic party that sustains the candidacy of Bryan. Let us wait, forewarned that the result will be favorable to us, because if the first party triumphs the events in China will come to our aid, as already they are beginning to do. The remainder of the army of occupation they are arranging to transport to the Oriental empire, and if McKinley is overthrown, Bryan will grant our independence to us. Then what difference does it make if the forces which we have denied to us against our wishes, do not concern yourselves with the doings of Bismarck and his companions; we have men of greater worth who will know how to fight and to guide us without mistake along the road to our independence. No peace, unless it comes preceded by a flag similar to that beautiful banner which is displayed on the fields of the Transvaal. Let us wait, confident in the justice of our cause, and if fortune should be adverse to us let us not forget that it is worthy to die with honor than to die dishonorably.

CALLED DOWN

Capital's Mangum Special a Downright Falsehood

Correspondence to Daily Leader.

Mangum, Okla., Oct. 4.—The Mangum Star this week says: "The Guthrie State Capital's Mangum special independent makes such an intensely bad break that it creates a doubt as to whether there be such a correspondent at all, or whether he is only a 'light' fellow."

Mangum may have, and has, men who will exaggerate, prevail on and lie, but it is not to be believed that she has one who will tell such a downright lie, without any provocation or color of truth in it.

"I'll never make any speech as 'center,' as stated in The Capital. He never tried to 'outride the press' as stated in The Capital. He never wanted Mangum to help a conference with leading Democrats" as stated in The Capital. Nor was the conference "highly satisfactory to the Democrats" as stated in The Capital. It is the story of the little boy who was the only child, "John," will you

ing life?" He replied: "My name ain't John, an' I ain't got no dog, an' he won't bite, neither."

The State Capital further states that "Democrats of this county are in communication with their brethren in Pottawatomie and Cleveland counties with a view to putting a straight Democrat candidate in the field," which is utterly and unqualifiedly false.

The Capital says that "Chairman Nichols of the Democratic Central committee of Greer had published a letter just prior to the advent of the Hon. Bob in which he had touched the Democracy of Mr. Neff," and this is the only truth in the whole article, and Mr. Neff more than justified the "voucher."

The Democracy of Greer was highly pleased with Mr. Neff's splendid fight for their principles as announced in the Kansas City platform, and it is confidently believed that the majority of the people, realizing that it is simply a fight between Hiram and Bryanism, between Dennis Flynn and Bob Neff, will line up for Mr. Neff.

It is also hoped that Mangum contains no man so dead to the principles of truth and honor, with so little self respect as to put himself in a position to have to wear the lie by reason of writing such an article as that contained in The State Capital.

FUSION COMPLETE UP IN KANSAS

United Democrats and Populist Face Disrupted Republicans

Scraps-McRae Press Ass'n.

Abilene, Kas., Oct. 4.—Since the beginning of the campaign of 1906 the prospects of the fusionists of Kansas—the Democrats and Populists—have been taking on a very favorable aspect. Each day many honest-thinking and conservative-minded Kansans are becoming converted to the fusion doctrine. For this widespread change of belief there are two principal causes. One is the wrongs among the Republicans as to who shall be United States senator should their party control the next legislature, the other is the trusts.

The senatorial fight seems to be the only issue the Kansas Republicans have. From the beginning of the campaign the senatorial aspirants have become more and more beligerent. The two leading candidates for this place are the incumbent, Senator Baker, and J. R. Burton. Not a single Republican county convention has been held this campaign at which there has not been a bitter fight over the selection of candidates for representatives to the state legislature. Cyrus Leland, the Republican boss in Kansas, occasionally comes out in a scathing diatribe against Burton, and after abusing him in several columns concludes with "let's have peace and work together only for Republican success." The Burton crowd is as profane as mud throwing as the Baker crowd.

Harmony Among Fusionists

Of the fusionists it can be said that in no year since the Populist party came into existence has there been so harmonious a campaign in that party. John W. Bradenbald, the fusion candidate for governor never abuses the Republicans, but conducts his campaign in a business-like manner and uses logical, logical arguments showing why the Republicans should not remain in power.

Many of the conversions to the fusion party have resulted from the good of incorporated wealth. Nearly all of the state's industries have been organized by big corporations. It has become impossible for the smaller land and stock raisers to operate on account of a trust. This can also be said of a wire and nail manufacturing, oil wells, paper mills and a number of other industries that were thriving in Kansas prior to the trust-organizing Republicans.

One of the latest inventions into Kansas by trusts was made by a Kansas elevator company, which is gobbling up elevators in central and western Kansas and forcing dealers to sell it in estimated that they will rob the Kansas farmers of fully \$7,000,000 on one year's crop should they gain control of enough of the central and western elevators.

The statistics compiled by the state labor commissioner show that if there has been any property in Kansas the

Three Indian Boys After Six Months in the Cheyenne Schools

working man has not been benefited a particle by it. Crops have been raised, but wages have not increased and living expenses are gradually becoming higher.

REMOVED THE CORNS FROM HIS MIND

Frank Heffley Performs Successful Operation on Major Hotfoot

Special to Daily Leader.

El Reno, Okla., Oct. 4.—Major Hotfoot is a Republican and has been in the habit of circulating the good word of the Democrats.

Captain Frank Heffley, a physician from Texas, has been listening to the major's sarcastic remarks for some time and in the presence of a goodly number of the boys he proceeded to lift the knots of the gentleman in the latest approved style.

"Stop," said the captain, "I have listened patiently to you, but your remarks until my stability were so to such an extent that I am compelled to ask in defense of my good old Democratic principles, to call you down. You have been making a big bluff on the good people of this country long enough, and it is time to make you right, you boys."

"Who Was the Gentleman, Sam?" "The boy said that the Democrats have done nothing for Oklahoma. I ask you all together, who was the gentleman, Sam, that gave to the people of these counties free money? I would like to see you also here your money sent by Democrats, for the next session of congress when you get the general free money bill first introduced by Senator Pettigrew. Can you mention one single act of kindness the Republican party has ever done for the people of Oklahoma that they have not well paid for doing? If I had a job of work, I would hire and employ you out to do it, and after the work was done paid you good money for your services, would you expect me to get down on my hands and knees and thank you for the expense of your job of thank you for work you had received pay for doing?"

IMPERIALISM FIXED HIM

Liberal Republican of Poplar Will Not Vote for Bryan

Poplar, Okla., Oct. 4.—H. A. White, who has been a liberal Republican and prominent in his party, announced that Bryan and McKinley stand as believe in materialism. He was in charge of the McKinley campaign and was not only a liberal Republican but also a member of the McKinley campaign.

NO WOOL PULLING IDEAS

El Reno, Okla., Oct. 4.—M. V. Matvey, a prominent merchant of Yukon was a visitor in the city today. Mr. Matvey says that he is not in his mind but when Bob Neff will get a majority of the votes in Yukon and Muskogee townships. Mr. Matvey has interviewed quite a number of farmers and has come to the conclusion that Mr. Flynn cannot put the wool over their eyes any longer.

RAILROAD NOTES

Railroad Men Are Moving to Guthrie—Switch Engine Today

The railroad business of Guthrie has increased sharply as shown by outside people. In the past few weeks forty-six railroad men have come here to reside. Those that have families have brought them here.

In the course of the next three months there will be fifty more here. Today the Santa Fe put a switch engine in the yards. It arrived in day and will work the switching.

Five engines blocked in the yards yesterday and one had left at the week end in the yard. The whole yards will be quiet.

There was a heavy locomotive on the siding Sunday night. Hardly a night passes but there are not less than eight which are over here.

Five trains blocked in the yards yesterday and one had left at the week end in the yard. The whole yards will be quiet.

with the month of Aug. The statistics of August exports, which have been compiled by the bureau of statistics, show that cotton is the leading export of the United States, with a value of \$1,100,000,000.

The following table shows the quantity, value and average price per pound of cotton exported during each custom year ending August 31st from 1887 to 1905.

Table with 5 columns: Year, Quantity (Pounds), Value (Dollars), Price per pound, and Percent. Data spans from 1887 to 1905.

SECOND NOTE

Of Germany Gets Action

ALL THE POWERS AGREE

Without Exception—Missionaries Asked to Pull Out of Peking

Scraps-McRae Press Ass'n.

Berlin, Oct. 4.—All the powers have agreed to demand that Germany should withdraw her missionaries from Peking, the United States agreeing to all the proposals if it will without reservation.

London, Oct. 4.—A communication of the Foreign Office in Washington today says that the American government has agreed to all the proposals without reservation.

GLARING FRAUDS

In Army Circles Uncovered

CHARGES OF JOHN COLE

A Former Army Accountant to be Investigated by Senator Mason

Scraps-McRae Press Ass'n.

New York, Oct. 4.—An article in The Herald in reference to the Cole army case has created much excitement in army circles. According to the New York paper, W. B. Mason, Republican senator from Illinois, has undertaken to secure at congress next sitting complete inquiry into charges preferred by John Greer Cole, recently an assistant in the office of the quartermaster general of the army. Mr. Cole has given to sensational statements of wrong doing in the department where he was employed, and has endeavored to shift the blame to the keeping of Senator Mason.

Enormous Frauds Committed

He also alleges that enormous frauds characterized the work of inspecting, packing and fitting up vehicles for transport duty. In effect, he says the government is being robbed of millions of dollars by sworn officers of the War department. He asserts that the most crying evil prevails in the transport service at Manila. Transports and freight ships are left at anchor for days and weeks with no effort to unload them. Thousands of tons of stores are constantly being condemned and sold for a few cents on the dollar to speculators in Manila, the same stores being later bought and used by the American colony and the large hotels of Manila. On one occasion 1,000 tons of government stores were purchased and sold for a song. The same stores were shipped to Hong Kong, sold to a government purchaser at a profit, and then reshipped to Manila where they were used by the government.

How the Government is Ripped

Transport contracts are kept flying at San Francisco, and are being turned back to those awarded for weeks. The government is actually paying from 4500 to 7500 per day for each of them. Government stores are piled up everywhere and never being touched on the way to their laboring men. Accounts representing millions of dollars, wrong by a factor of 100,000, are "O. K'ed" without a check. If the holder is one of the gang, the government has made money in different ways of some of the gang, or compensated with which the money is involved in the Cuban postal system, or a mere hospital. Thus the government is being ripped.
